Professional Profile

I am a motivated, adaptable and passionate professional with an academic background in Education Science with a strong intention in transitioning into other fields particularly tech industry. I am self-driven, ambitious, innovative, analytical, a fast learner and a team player equipped with strong communication and problem solving skills. I desire to work in a highly competitive and dynamic organization specializing in providing quality standards and excellent services. My academic journey sharpened my research skills and capabilities, data analysis. I am currently building my technical proficiency in tools and languages such as Excel, Linux, Python and services like cloud computing, networking, cybersecurity among others with the help of AWS Restart program, Power Learn Project and IBM Skills Build. I am committed to continuous learning with hands-on experience through personal projects, certifications and collaborative work.
